Senior Full-Stack Software Engineer

PROFESSIONAL SUMMARY
Full-Stack Engineer with 5+ years of experience designing scalable web applications and real-time systems. Proven track record in building distributed services, microservices architecture, and responsive user interfaces.

TECHNICAL SKILLS
Languages: JavaScript, TypeScript, Python, SQL, C++
Frontend: React, Tailwind CSS, HTML5, CSS3, Redux
Backend: Node.js, Express, FastAPI, REST APIs, WebSockets
Databases: MySQL, PostgreSQL, Redis, MongoDB
DevOps and Tools: Docker, Kubernetes, Git, AWS, CI/CD pipelines

WORK EXPERIENCE
Senior Software Engineer | CloudScale Systems 2022 - Present
- Architected distributed real-time collaborative workspace supporting 10,000+ concurrent users.
- Optimized SQL database queries and implemented Redis caching, reducing API latency by 45 percent.
- Mentored 4 junior engineers and established engineering best practices for TypeScript and React.

Software Engineer | DataBridge Technologies 2020 - 2022
- Developed backend microservices using Node.js and Express with automated integration tests.
- Containerized legacy applications using Docker and streamlined production cloud deployments.

EDUCATION
Bachelor of Science in Computer Science | University of California, Berkeley 2016 - 2020
